

HowTo access Ingenico 6550 Command Screens:

To Reboot the terminal:

1. Turn off the power, wait 5 seconds, and turn on the power.
2. Simultaneously press and release keys CNT (Cancel), Enter, 0 (zero).
When the screen dims, release all three keys.

To Access the System Menu:

During reboot press and keep down the 1 and 3 keys, until the SSA menu shows up on the screen.

Cancel or Prev (previous) key is available all the time to take the menu selection 1 level up.

To Access the SSA System Menu:

During reboot press and keep down the CLR (Clear) key and keep down until the SSA menu shows up on the screen.

Cancel or Prev (Previous) key is available all the time to take the menu selection 1 level up.
Extended Menu selects the System-Menu.

To Enter Supervisor Mode:

Enter System-Menu. Password: 2 6 3 4.

For MLDT

Enter SSA-System-Menu. Select "Local Download". Enter password: 1 9 7 5. <Enter>. Select "Start now".
Use up or down arrow keys to select menu item. Press Enter.

To Perform MILLOAD

Press terminal reset button for few seconds.

On PC start the MILLOAD application. Select correct script. Press button "Download".
